## Summary

As a recent graduate of Software Engineering at Institut Teknologi Telkom Surabaya, I have a strong foundation in Android app development and a passion for mobile app technology. I am currently focusing on expanding my expertise in back-end software development and have hands-on experience building apps using Agile Scrum, Kanban, and Extreme Programming methodologies.

I am eager to learn more about other software development technologies and always look for new opportunities to collaborate on open-source projects. With excellent problem-solving and analytical skills, I am a fast learner and a dedicated team player, committed to delivering quality results.
